Take a Glance on Our History

In the beginning, we used to deal in custom-made footwear. Gradually we kept changing our profile. And finally, in 1965, we turned to dealing in ready-made footwear. Aims and Objectives Being a highflier entrepreneur, we are supposed to spread our wings. And having kept in mind the very thing, we would like to open our branch in various cities of India. And if the environment is conducive, we will definitely try our luck overseas. We are firmly committed to social welfare. If the environment is in our favour, we would actively involve in the field of education, healthcare and poverty alleviation.
